TREE PROJECT AWARD

Supervalu Tidy Towns Competition 2021

The right tree in the right place!

The Tidy Towns Tree Project Award is a special competition sponsored by the
€Tree Council of Ireland to the value of €1,000.

This award is for the Tidy Towns Committee which has demonstrated the highest tree placement and maintenance standards.

Properly positioned trees can have a major impact in a city, town or village enhancing the visual aspect of the area. For instance, planting a series of fast-growing trees for instant effect could have long term negative implications for footpath or street management. Therefore, it is essential that careful thought is put not only into the planting but also the management of the trees over their lifespan. This award highlights this importance.

In addition, this award seeks, where appropriate, to raise awareness and promote initiatives to enhance the protection of old and established trees; trees that are of natural, historical, cultural, botanical or landscape significance within a community.

The following criteria will be considered for the award:

- Trees must be in a public place; e.g. a street, an open space, a school, church grounds
- The trees may be existing or newly planted. If new trees, they must be appropriate to the site in species, cultivar suitability, shape, size, colour
- Trees must be located appropriately within the site
- Trees must be well maintained with regard to watering, weed control, staking, tree ties, tree guards (if necessary) and appropriate surgery carried out where necessary
- A clear plan for renewal of older trees should be in place
- The project should contain an element of raising awareness of trees within the community.
